Greetings Wildcat Fans and Family,

In an effort add more accountability to the role of the student athlete, the athletic department has agreed to a new standard of discipline enforcement supplementing policy 4300. The new standard will be as follows:

Any student athlete receiving a referral for behavioral misconduct resulting in time away from the classroom setting (In School Suspension), will be required to miss practice or the game on the day of the referral.

The athletic department, with the support of administration, believes this move is necessary to provide clarity to the policy in the Columbia High School Student Handbook. It is the goal of the Columbia High School community to avoid the possibility of being misrepresented in the determination of effective disciplinary procedures.

Respectfully,

Michael L. Yancey, Principal
Columbia High School
